LETTER OF CONTINUING GUARANTEE

Our raw material suppliers have certified that the resins used to make all WP Innova's Airflow Vented films except the opaque/tinted blends, meet FDA Food Additive Regulation 21 CFR 177.1520 par(c) 3.1. This regulation states that the polymer can be used in all food packaging applications, except holding food during cooking.

WP Innova hereby certifies that the films sold to the original buyers are not adulterated nor misbranded as outlined in section 409 of the United States Federal Food, Drug, and Cosmetic Act with the exception of our films containing pigments including, but not limited to, the UV inhibited products, the light tint color films, and dark tint color films.

Please contact your sales representative if you have additional questions.

A handwritten signature in black ink, appearing to read "Viktor Kim".
